HERITAGE DRY-STACK

Heritage Dry-Stack is a mortarless clay brick veneer that features a rolled edge. Each brick is approximately 11.625" in length, 2.75" in height and 1.6" thick. Coverage is based on tight-fit joints and 4.5 bricks make up 1 sq. ft. Coverage will vary based on joint size, cutting or trimming preferences. 1 clip required per brick.

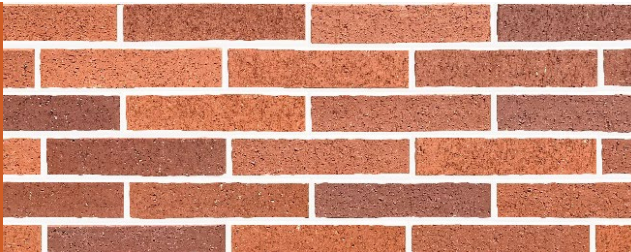

Dimensions (L x W x H):

- Crate | 40" x 40" x 29"

COLOR	PRODUCT CODE (SKU#)	PACKAGING	WEIGHT (Approx.)
	PALLET FLATS	UNIT	PER UNIT OF SALE
		Pallet Flat	2031 lbs.
UNIT OF SALE		Pallet	
BRICK/ UNIT OF SALE		590	
CVG./ CTN		131 sq. ft.	
STOCKED			
Cambria	031902400		
Prairie	031902401		
Slate	031902403		
Walnut	031902402		

Each pallet requires 12 bags of
QS-DS Dry-Stack Fastening Clips & Screws
& 20 rolls of Butyl String.

BROADLINE TRADITIONAL

Broadline Traditional is a mortared clay brick veneer that features a square edge. Each brick is approximately 11.625" in length, 2.75" in height and 1.6" thick. Coverage is based on 1/2" joints and 3.9 bricks make up 1 sq. ft. Coverage will vary based on joint size, cutting or trimming preferences. 1 clip required per brick.

Dimensions (L x W x H):

- Crate | 40" x 40" x 29"

NON-STOCKED			
Cambria	031902404		
Prairie	031902406		
Slate	031902407		
Walnut	031902405		

Each pallet requires 12 bags of
QS-TM Traditional Fastening Clips & Screws.

*BRIKclad is designed to have a slight color variation between bricks. Ensure the installer blends bricks from multiple pallets in line with standard masonry practices.

As per Brick Industry Standards, please allow for a 5% breakage allowance

MAXUM DRY-STACK

Maxum Dry-Stack is a concrete brick veneer that features a bevelled edge. Each brick is approximately 15.3" in length, 3.5" in height and 1.8" thick. Coverage is based on tight-fit joints and 2.6 bricks make up 1 sq. ft. Coverage will vary based on joint size, cutting or trimming preferences. Use one clip per brick for walls under 30 feet high and two clips per brick for walls 30 feet and taller.

Dimensions (L x W x H):

- Crate | 40" x 40" x 29"

BUTYL STRING

Butyl string is a waterproof synthetic rubber adhesive, used to bond brick. It is required between each course of brick for both Heritage Dry-Stack and Maxum Dry-Stack applications. It is recommended for the first course of Broadline Traditional (mortared) applications.

Heritage Dry-Stack: 1 pallet requires 20 rolls of Butyl String.
Maxum Dry-Stack: 1 pallet requires 10 rolls of Butyl String.
